Recognized as the “Largest Family Gathering of the Sector,” the Türkiye Energy Summit will be held this year under the theme “Quo Vadis Energy Industry?” on December 8–9, 2025, at the Hilton Istanbul Bomonti Hotel & Conference Center.

The Türkiye Energy Summit, distinguished as the first and only organization that brings together the electricity, natural gas, petroleum, LPG, and renewable energy markets, hosts over 1,500 national and international participants each year. It brings together high-level representatives from public institutions and organizations of Türkiye and neighboring countries, creating opportunities for new collaborations.

The summit addresses the impact of the transformation process in energy markets on Türkiye and global energy markets, future trends, the expectations and requirements of Turkish energy markets during this process, the changes driven by digitalization in the sector, changes in energy financing conditions, the renewable energy transformation, and issues affecting energy markets in regions of close interest to Türkiye, such as the Eastern Mediterranean and the Middle East.

In addition to contributing to the future projections of the participants and the decision makers, the Türkiye Energy Summit also facilitates the development of strategic solutions in line with the developments and needs of the energy sector.
